

**CONNECTINGS + TRIGGER**

- 1) Right speaker outputs.
- 2) Left speaker outputs.
- 3) General power plug and ON/OFF button (with protective fuse).
- 4) Input type selector:
  - Line: button up.
  - XLR: button down.
- 5) Switch for MONO bridge.
- 6) Right line input.
- 7) Left line input.
- 8) Right line output.
- 9) Left line output.
- 10) Right XLR input.
- 11) Left XLR input.
- 12) Trigger input<sup>(1)</sup>.

<sup>(1)</sup> This input allows the control ON/SLEEP of your amplifier simultaneously to any device with a 12V Trigger outlet. For the system to operate, the ON/SLEEP button on your AM300 must remain in the SLEEP position (0). If the switch is in the ON position (I), the amplifier will work but not the Trigger function.

**Trigger cable must be a Male to Male stereo jack plug Ø 3,5 mm (1/8").**

**DETAILS OF FUNCTIONS**

- 13) Led indicator of ON/SLEEP switch.
- 14) Led indicator of mono bridge: the led is ON when the Power Amp. has been activated on MONO before general switch on.
- 15) Led indicator of XLR Input mode: the LED switches on if the button (8) on the rear of the AM is on XLR position.

**BRIDGE MONO MODE**

**Warning: be sure that your amplifier is unplugged and that no other appliance is plug-in during this operation.**

You can transform your power amplifier into a mono bridge amplifier. Activate the input (11) at the rear of the appliance on MONO. PRE-OUT outputs of the preamp must be connected to the **Right inputs** of each Amplifier.

For each Amplifier, terminal ⊕ (red) of the Right output (1) has to be connected to the terminal ⊕ (red) of the speaker and terminal ⊕ (red) of the Left output (2) to the terminal ⊖ (black) of the speaker.

The wiring of the speakers will be the same while using RCA or XLR cables.

**CONNECTIONS**

(Configuration: 1 Preamp and 2 Power Amplifiers mono bridged).

**E.C. MARKING**

E.C. marking certified the conformity with low tension directive 73/23/CEE, directive CEM 89/336/CEE, and national transpositions.

**WARRANTY CONDITIONS**

The guarantee is **two years** long from the date of purchase. We recommend you to ask your dealer to fill the guarantee and to conserve it. The guarantee is only available for appliances that have been used correctly.

**CLEANING**

Before any cleaning, switch off your amplifier. Use a soft and dry rag to clean up the appliance. Never use acetone, white-spirit, ammoniac, or any kind of product containing an abrasive agent. **Never try to clean up inside the appliance.**

**TECHNICAL DATA**

Power Wrms/ch./8Ω (230v):	150 W
Power Wrms/ch./4Ω (230v):	280 W
Power in bridged mono/8Ω mode:	500 W
Power supply:	2×440 VA
Total of capacitors:	83 600 μF
Number of stereo inputs:	1 RCA + 1 XLR
Switch OFF consumption:	0 W
ON consumption:	26 W - 700 W
Input impedance:	220 kΩ
Sensitivity:	1,7 V
Signal/Noise ratio:	105 dB
Distortion at 1 kHz:	0,005 %
Bandwidth :	5 Hz - 200 kHz
Rising time:	1,5 μs
Dimensions:	440×351×103 mm
Weight :	16 Kg

**CAUTIONS**

- **Do not make any connections when your device is powered on.**
- Put your device in a dry and well-ventilated place, far from a source of heat.
- Avoid putting something on your amplifier.
- Avoid any short-cut.
- Strictly respect polarity ⊕ & ⊖, as well as the left and right connections.
- Do not plug-in two speakers in parallel on the same output.

**ADVISES**

- To optimize the performance of your device, you should switch it on at least half an hour before any listening, the time for the power stage to reach its ideal working temperature.
- Your device will give you optimal listening quality after this time-lapse.
- Between two uses, it is, therefore, preferable to let the device on so that it remains at its optimum temperature.
- At night or when you leave your home, it is best to use the main switch to turn off the device.
- To optimize the sound quality of your system, we recommend that you choose good-quality connection cords. Do not hesitate to ask your specialist dealer for advice.
- Your amplifier is equipped with a temporized switch on. A relay protects loudspeakers on the output power stage from over-voltage.
- Your amplifier has thermal protection. In case of overheating, this protection is activated: the front LED flashes and the sound is muted until the device cools down.

*You have just bought an amplifier with exceptional audiophile performance.  
We really thank you for your confidence in our products. To get the best part  
of your amplifier, please read carefully this manual.*

**YOU WILL FIND  
ENCLOSED**

- A power amplifier AM300 EVO.
- One power lead.
- This manual with the certificate of guarantee.
